### MATERIALS

#### FRAME

##### TEAK

We only use carefully selected, fully grown teak, which is harvested in accordance with the strictest environmental standards. The reason for its generally commended durability is the high levels of natural oils it contains. The resulting minimal moisture absorption prevents warping which gives it great stability. Moreover, the wood is extremely resistant to the influences of chemicals, as well as against attacks by vermin.

TEAK

#### COATED WOOD

The wood is coated with a scratch-resistance polyurethane lacquer. It has the same properties as classical exterior joinery work and the same warm character.

COATED WOOD - WHITE

COATED WOOD - RED

### CHARACTERISTICS

Optional cushions
